

INVESTMENT OPPORTUNITY

SolarQ delivers energy smarter because we provide a flexible energy solution to suit the customer needs at the lowest cost and lowest risk, without complexity. Our purpose is to provide affordable, reliable & sustainable energy.

SolarQ has secured strategic sites with its first site to market being the Lower Wonga Q Energy Zone which has the following attributes:

350_{MW}

Stage 1 solar generation

4,000_{MWh}

Energy Storage

1,000_{MW}

Total available site capacity

SolarQ has a 10 year development plan to roll-out strategic energy assets in South East Queensland with a competitive advantage driven by:

- Superior Strategic Locations
- Very Large Scale
- Flexible Market Offerings

SolarQ will deliver real solutions for the “energy trilemma”:

- Energy Prices – lowest in market delivered energy cost;
- Security of Supply – SolarQ avoids the risk of major network failure that arises with other QLD projects in areas subject to network constraints;
- Reducing Emissions - meet Australia’s Climate Change commitments under the Paris Agreement.
